

**A Sampling of Natural Resource Extension Programming in Washington State
a workshop facilitated by the
Association of Natural Resource Extension Professionals (ANREP)**

February 28, 2005

CUB - WSU Campus

This meeting is for WSU Extension educators working in environmental education, fisheries, forestry, wood sciences, range, recreation, waste management, water, wildlife, and related disciplines – and interested others.

Natural resources play an important role in the economy and quality of life in Washington. WSU Extension conducts a wide variety of innovative, excellent natural resources educational programs for audiences including family forest owners, managers, decisions makers, natural resource industries, homeowners, youth, conservationists, and general public.

The objectives of this meeting are to:

- Foster interaction among WSU Extension educators working in some aspect of natural resources and interested others.
- Present a sampling of Natural Resources Extension programming in Washington State.
- Consider formation of a state chapter of the Association of Natural Resource Extension Professionals (ANREP).

ANREP

<http://anrep.org/>

ANREP is a national association for Cooperative Extension Service (CES) professionals working in environmental education, fisheries, forestry, wood sciences, range, recreation, waste management, water, wildlife, and related disciplines. Members are active and retired CES employees at the county, area, state, or national level.

ANREP's objectives:

- Bring Extension professionals together to discuss mutual natural resource issues, needs, and opportunities.
- Advance natural resource Extension through continuing education for Extension professionals.
- Promote cooperation among states and regions, agencies, associations, and businesses on natural resource education programs.
- Develop, sponsor, and promote education and training that advance natural resource management.
- Strengthen communication with Extension administrators.
