Tonasket Community Cultural Center
411 Western Ave, Tonasket

Is your forest healthy?

- What exactly IS a “healthy forest?”
- How do you know if your forest is healthy?
- How can you prevent your forest from becoming unhealthy?

In this forest health workshop, you will learn about the biotic and abiotic factors that affect your forest’s health. You will also learn how to recognize forest health problems and how to manage your forest so that it maintains a healthy condition.

Workshop is Co-sponsored by:
